

At a Glance: 2020 Nissan 370Z Coupe

Five decades ago, a revolutionary Japanese sports car made its U.S. debut at the 1969 New York Auto Show. The two-door coupe was, for the era, both stylish and powerful. Best of all, with an MSRP of just over \$3,500, it was affordable compared to other sports cars on the market. Known as the “Fairlady” Z in its home market, it came to America under the moniker of the 1970 Datsun 240Z. The rest, as they say, is a proud history that includes outstanding success in showrooms and racetracks alike. Now in its sixth generation, Nissan is celebrating 50 years of sports car passion with the 2020 370Z 50th Anniversary Edition.

The new 50th Anniversary Edition package is offered exclusively on the 370Z Coupe Sport grade and is available with both the 6-speed manual and 7-speed automatic transmissions.

Its unique appearance pays tribute to the renowned Brock Racing Enterprises (BRE) livery that adorned the famous BRE Datsun racers of the late 1960s and early 1970s – in a choice of two exterior two-tone color options: White/Red or Silver/Black with bold door stripes. Other exterior features include unique red wheel accents, black outside mirrors, 50th Anniversary side marker decals and 50th Anniversary rear badge. In addition, the standard Sport front chin and rear spoilers have been deleted.

The car’s unique interior treatment features leather-appointed and synthetic suede sport seats with red accents and logos, 50th Anniversary embossing on the seatbacks, leather or Alcantara® steering wheel with top red stripe, 50th Anniversary badges on the tachometer and console, synthetic suede door panel inserts with red stitching, red contrast stitching and piping throughout the interior, dark silver 50th Anniversary kickplates and 4-way power heated seats.

In addition to the new 50th Anniversary Edition package, the 2020 370Z Coupe is available in three trim levels – 370Z (manual and automatic transmissions), 370Z Sport (manual, plus automatic on 50th Anniversary Edition only) and 370Z Sport Touring (automatic transmission only). Also available is the 2020 Nissan 370Z NISMO with 18 additional horsepower, NISMO-tuned suspension, unique exterior panel treatments, 19-inch NISMO super-lightweight forged aluminum wheels by RAYS and more.

Again for 2020, the instantly recognizable 370Z exterior features LED daytime running lights and boomerang-style taillights and aluminum hood, doors and hatch. Inside, the interior features available synthetic suede and leather-appointed seating, iconic instrument panel mounted 3-bay gauge cluster, Automatic Temperature Control, Nissan Intelligent Key™ with Push Button Ignition and available Bose® audio system with Active Noise Cancellation (ANC), Active Sound Enhancement (ASE) and eight speakers.

Other available technology features include standard auto-dimming rearview mirror with RearView Monitor and available Nissan Hard Drive Navigation System with 7-inch VGA touch-sensitive display.

All 2020 Nissan 370Z Coupe models are offered with a 332-horsepower 3.7-liter DOHC V6 engine with Variable Valve Event and Lift Control (VVEL) and choice of 6-speed manual transmission with an available SynchroRev Match® synchronized downshift rev matching

system with motorsports-inspired EXEDY® high-performance clutch, or a 7-speed automatic transmission with available paddle shifters.

Highlights of the 2020 Nissan 370Z Coupe include:

Body:

- High rigidity body with a dynamic presence and advanced aerodynamics
- Aggressive front fascia with dark-tinted headlights, vertical LED daytime running lights
- Blackout rear fascia and dark-tinted rear combination lights
- Red reflector for rear fascia
- Authentic Z® sports car design and proportions with long hood and canopy cockpit
- Short wheelbase (100.4 inches) and length (167.5 inches), aggressive stance
- Lightweight aluminum hood, doors and hatchback
