

At a Glance: 2023 Nissan Z

In 1969, a revolutionary Japanese two-door sports car made its U.S. debut in New York City – the Datsun 240Z. In 2021, an all-new, just as revolutionary, seventh-generation version makes its global debut also in New York. This time, the nameplate simply reads “Z.”

From a design standpoint, the all-new 2023 Z offers a sleek, attractive exterior with a silhouette that shows respect for the original model – with a long hood and low rear stance. Inside, the driver-centric cockpit includes a 12.3-inch customizable racing-inspired TFT meter display, available leather-appointed sports seats and 8-speaker Bose® Audio system.

All 2023 Nissan Z models are equipped with a 400-horsepower 3.0-liter V6 twin turbo engine and choice of 6-speed manual transmission with motorsports-inspired EXEDY® high-performance clutch, or a 9-speed automatic transmission with aluminum paddle shifters.

The 2023 Z is offered in Sport and Performance grade levels and a special Proto Spec edition, which is limited to 240 units.

Highlights of the 2023 Nissan Z include:

Body:

- Traditional rear-wheel drive sports car design with high rigidity body, commanding presence and advanced aerodynamics
- Long hood, lower rear stance
- Heritage-style LED headlights and LED daytime running lights
- Rear LED combination lights
- Lightweight aluminum hood, doors and hatchback
- Dual body-colored power outside mirrors with integrated LED turn signals
- Side sill spoilers, available front chin spoiler and rear spoiler (Performance)
- Six available two-tone premium exterior color schemes, each featuring a Super Black roof and choice of: Brilliant Silver, Boulder Gray, Seiran Blue, Ikazuchi Yellow, Passion Red TriCoat and Everest White Pearl TriCoat
- Three available monotone exterior colors: Black Diamond Metallic, Gun Metallic and Rosewood Metallic

Engine and Driveline

- Front engine/rear-wheel drive
- VR30DDTT 3.0L V6 Twin Turbo engine, 24-valve DOHC V6 rated at 400 horsepower @ 6,400 RPM, 350 lb-ft of torque @ 1,600 – 5,200 RPM
- Electronic Variable Valve Timing Control (E-VVT)
- Micro-finished crankshaft and camshaft; small pitch, silent cam chain; drive-by-wire throttle
- Oil cooler, electric cooling fan
- Standard 6-speed close-ratio manual transmission with EXEDY® high-performance clutch
- Available SynchroRev Match®, allowing heel-toe-like downshifting (manual transmission)

- Available electronically controlled 9-speed automatic transmission with manual shift mode, launch control, Downshift Rev Matching
- Motorsports-inspired EXEDY® high-performance clutch (manual transmission models)
